## EDUCATION

### G H Patel College of Engineering & Technology

Bachelor of Technology in Computer Engineering (CGPA: 9.19/10)

Anand, Gujarat

Aug. 2023 – June 2027

### Gangotri International School

Higher Secondary (GHSEB)

Gondal, Gujarat

June 2022 – May 2023

## EXPERIENCE

### Global Epitychia

May 2026 – June 2026

Web Developer Trainee

- Developed the Ajaysinh Foundation NGO Management & Fundraising Platform using React.js, Node.js, Express.js, MongoDB, JWT, and Razorpay.

## PROJECTS

### CogniTrace – AI-Powered Adaptive Learning & Behavioral Analytics Platform

Feb 2026 – Present

React.js, TypeScript, Node.js, Express.js, MongoDB, TensorFlow.js, JWT

- Built adaptive learning platform with personalized recommendations and progress tracking via behavioral analytics.
- Integrated TensorFlow.js attention analysis using webcam signals and engagement metrics for real-time focus estimation.
- Implemented JWT auth, RBAC, AI-assisted quiz generation, and analytics dashboards with explainable AI feedback.

### SmartFood – Food Waste Reduction & Inventory Optimization Platform

Jan 2026

MERN, Python, Facebook Prophet, Random Forest

- Developed full-stack platform for inventory optimization, food waste reduction, and surplus redistribution in retail environments.
- Implemented demand forecasting using Facebook Prophet, near-expiry product detection, and discount management workflows.
- Built role-based modules for Admins, Store Managers, NGO Partners, and Consumers with donation management features.

### OrbitOne – Project Management & Billing ERP Platform

Oct 2025 – Jan 2026

MERN

- Developed ERP platform integrating project planning, task management, billing, expense tracking, and profitability analysis.
- Implemented Sales Orders, Purchase Orders, Invoices, Vendor Bills, Timesheets, and expense approval workflows with RBAC.
- Built analytics dashboards for project progress, resource utilization, revenue monitoring, and financial reporting.

### TravelLoop – Personalized Travel Planning Platform

Feb 2026

MERN

- Developed travel planning platform for multi-city itineraries, travel schedules, and activity organization.
- Implemented budget estimation, cost breakdown, itinerary sharing, travel journals, and destination discovery.
- Built trip analytics dashboards and personalized planning tools to enhance travel organization and user experience.

## TECHNICAL SKILLS

**Languages:** Java, JavaScript, TypeScript, Python, C, C++, SQL

**Frontend:** React.js, HTML5, CSS3, Tailwind CSS

**Backend:** Node.js, Express.js, REST APIs, GraphQL, Socket.IO, JWT

**Databases:** MongoDB, MySQL

**Tools:** Git, GitHub, Docker, Postman, VS Code, Cloudinary, Figma, Adobe Photoshop

## ACHIEVEMENTS & CERTIFICATIONS

### Achievements

- Finalist in 3 Odoo Hackathons (Top 20 Teams)
- 4th Place – CVMU Hackathon
- Amazon Future Engineer Scholar (2024–2025)

### Certifications

- SAP Certified – Back-End Developer – ABAP Cloud (88.8%)
- SAP Technology Consultant Track
- Accenture UK Developer & Technology Job Simulation
